## **PRESS RELEASE**

For immediate release

### **Celebrating Montreal's Radio Broadcasting History**

Montreal, February 7, 2020 – The **Musée des ondes Emile Berliner** is proud to invite the Montreal community to the launch of their new theme exhibit **100 years of radio broadcasting in Montreal**.

As part of the celebration for the **Centennial of Broadcasting in Canada**, this new exhibition commemorates the development of radio technology throughout the last 100 years. Montreal being positioned as paramount in radio innovation, visitors will learn about radio pioneers, historical objects, and the first Canadian broadcasting stations. The opening of this temporary exhibition will take place on **February 27 at 5 pm** at the Musée des ondes Emile Berliner located on the second floor of the RCA Building in Saint-Henri.

The **Musée des ondes Emile Berliner** is the only Canadian institution dedicated to the preservation of sound technology heritage. Through its collection, the MOEB showcases the rich industrial heritage of Saint-Henri, and the impact of Canadian innovations in global media and telecommunication development.

To learn more about the Musée des ondes Emile Berliner and its current exhibits visit [moeb.ca](http://moeb.ca) and [Radio100.moeb.ca](http://Radio100.moeb.ca). Follow us on Facebook (/Radio100Ans) and Instagram (@moeb\_mtl).
